

LS 990

SNOW WHITE MATT

The LS 990 is the classic among the flat switches and JUNG introduced it to the market back in 1968. It is still very popular today with its timeless elegance. Its secret is that JUNG reduced the design of the LS 990 right down to the essentials. The LS 990 switch was inspired by the Bauhaus school of design. The LS 990 is also based on clear, elementary forms.

# LS 990
